Electric Light Plant.

There is a proposition pending in
 Council to enlarge the electric light
 plant. How this can be done in the
 face of the defeat of the proposition at
 the polls, is hard to tell. The Council
 withdrew everything but the direct
 proposition of \$20,000 for a new power
 house—and it was defeated.
 The City ought to build when it does
 build, not only for the present, but for
 the future, and any move to put up a
 plant costing less than \$10,000 to \$15,000
 will be a penny wise and pound foolish
 policy, that the tax-payers ought to
 rebuke. If the City wants to own a
 power-house, the purchase of the ad-
 joining church property ought to be
 considered.
 The use of the City Hall as a stable is
 fast rendering it unwholesome and un-
 fit for occupancy for entertainments.
 The fire horses' stable under the stage
 of the Auditorium is well taken care
 of, as well or better than any other
 stable in the city, but it is one of the
 decrees of fate that a stable in any
 building no matter how large will per-
 meate the whole building with noxious
 smells. Furthermore the firemen are
 in cramped quarters, and there is not
 the room there ought to be for the fire
 apparatus in the City Hall.
 The adjoining church property is 85
 feet front by 135 feet deep, the church
 building we understand cost \$13,000.
 The tower could be taken down and
 the building built out flush with the
 street, thus affording ample room for
 the fire department down stairs and
 room upstairs for the firemen. The
 main audience room would afford ample
 space for the electric light plant for
 years to come. That floor is far above
 all ordinary high waters. The flood of
 1884 was only one foot on the floor.
 Then the basement would afford ample
 room for the city machinery, sweeper,
 road scraper &c., also place for prison-
 ers to pound stone and for a city stable
 if necessary.
 The bell will go with the church and
 can be placed in the City Hall tower for
 fire alarm purposes. If a new church
 should be built it would in all proba-
 bility not have a bell tower or bell.
 The present bell "Memnon" was made
 by McShane & Co., Baltimore, and is
 still as good as new. It weighs 1400
 lbs. and complete with yoke &c. 2100
 pounds. It cost \$500. If an addition
 to the City Hall should be built for
 electric light purposes, it would virtu-
 ally render the church property unten-
 able for church purposes. It would be
 better policy for all concerned to re-
 submit the proposition for a power
 house to a vote and then, if it should
 carry, try and purchase the church
 property, as we know the Congregation
 are thinking strongly of a new church,
 if they can dispose of the old one; and
 if they do build, the plans they have in
 view, will produce a church edifice that
 will be a credit to the city. S. J. H.

THE SECOND DAY.

Wednesday's Exercises of the State As-
 sociation of Congregational Churches.
 Wednesday morning, upon the re-
 sumption of the program at the Con-
 gregational church, Rev. D. M. Ladd,
 D. D., of Cleveland, was elected Mod-
 erator, and Rev. R. S. Lindsay, of Col-
 umbus, Assistant Moderator. Rev.
 Mr. Meade was chosen Scribe. The
 forenoon and afternoon sessions were
 occupied by reports of committees,
 routine work and a number of master-
 ly addresses according to published
 program.
 At 7:30 in the evening the church
 was packed almost to suffocation by a
 splendid audience eager to hear the
 addresses scheduled for the evening
 session.
 Dr. Ladd, of Cleveland, presided and
 Mr. James Brand, of Oberlin, was the
 first speaker, taking as his theme,
 "History of Ohio State Association."
 He gave a short account of several
 somewhat weak movements which pre-
 pared the way for a committee which
 met in McConnesville in 1851 and con-
 sidered the subject of forming a state
 Association, which took shape the next
 year and was composed of 42 churches
 and over 80 pastors. Up to 1850 there
 were only four associations in the
 state. Sentiments being red hot on the
 slavery question a stand was taken
 against this evil. For a long time it
 was very difficult to reconcile many op-
 posing factions. As an illustration of
 which he told the story of a child ask-
 ing her mother if God made monkeys.
 "Yes," "Well, I believe he must have
 laughed when he got the first one fin-
 ished," said the child. So perhaps
 God did at first with these conferences.
 But peace was soon established and a
 grand work has since been done. For
 a long time the work was chiefly or-
 ganization and extension. Many
 churches would have died out but for
 the State Association.
 After this address, the quartette,
 composed of Mr. and Mrs. Bird, Mr.
 Gates and Miss Ward, sang a beautiful
 arrangement of "Rock of Ages."
 Rev. Chas. F. Thwing, President of
 Western Reserve University, delivered
 a fine address on "Educational Work
 of Congregationalism." When Sir
 Walter Mildmay returned to England
 after an absence the Queen asked him
 what he had been doing. He replied
 that he had been planting an acorn.
 The educational work has been like
 planting an acorn—founding colleges.
 First Harvard and Yale, then Dart-
 mouth, Williams, Crawfordsville, Va-
 bash, Knox; still further west were
 Beloit, Iowa College, the first west of
 the Mississippi; then Yankton, Fargo,
 Colorado and Whitman, in Washington.
 Of course, besides these, other denomi-
 nations have founded many, besides
 the State Universities.
 The main idea was to educate min-
 isters for the churches. A minister of
 a state must be trained in that state
 generally. The heart must be trained;
 the conscience, that it may be vigor-
 ous and strong in knowledge; to
 train the will, that it may be strong to
 refuse wrong and uphold the right; to
 train the whole man, is the purpose of
 the Congregational Colleges.
 As a denomination they have also
 been in the higher education of women.
 Many of the colleges were very poor,
 taking part of their endowment in
 spoons, lumber, clocks, and even grave-
 stones. But they were rich in sacrifice,
 prayer, and the magnificent men they
 turned out. He spoke of some of the
 foremost educators as Timothy Dwight,
 Mark Hopkins, Hitchcock, Fairchild,
 Butterfield, Tuttle and many more.
 After the exercises a reception was
 given at Andrews Hall, which was
 largely attended.

Your Boy Won't Live a Month.
 So Mr. Gilman Brown, of 34 Mill St.,
 South Gardner, Mass., was told by the
 doctors. His son had Lung trouble,
 following Typhoid Malaria, and he
 spent three hundred and seventy-five
 dollars with doctors, who finally gave
 him up, saying: "Your boy won't live a
 month." He tried Dr. King's New
 Discovery and a few bottles restored
 him to health and enabled him to go
 to work a perfectly well man. He says
 he owes his present good health to the
 use of Dr. King's New Discovery, and
 knows it to be the best in the world
 for Lung trouble. Trial Bottles Free

THOMAS COLLIER PLATT.

The clever manager of Gov. Morton's
 campaign is not an avowed candidate for
 the republican presidential nomination,
 but should the formation of combinations
 seem imperative it is more than probable
 that the New York leader might capture
 the coveted prize. Mr. Platt was born
 July 15, 1823, at Owego, N. Y. He left Yale
 in his sophomore year in 1853, on account of
 failing health, but received the honorary
 degree of M. A. in 1876 from that college.
 He entered mercantile life, became presi-
 dent of the Tioga (N. Y.) National bank,
 and engaged in the lumber business in
 Michigan. Was elected to congress as a re-
 publican in 1872, reelected in 1874, and on
 January 24, 1881, was chosen United States
 senator; but resigned May 16 of the same
 year, with his colleague, Roscoe Conkling.
